

PUBLIC MEETING

TO ELECT WAIPARA / OMIHI MEMBERS OF KATE VALLEY LANDFILL COMMUNITY LIAISON GROUP

7.30pm Thursday 19 June 2014

Waipara Hall.

During the consent hearing process for Kate Valley Landfill, Transwaste Canterbury Ltd (TCL) offered to set up a Community Liaison Group (CLG). The Community Liaison Group has a term of three years and a new Group is now required to be elected.

The Group is to consist of a maximum of three representatives of the property owners of the Waipara / Omihi area; two representatives of the property owners of Mt Cass Road; and one representative of the Consent Holder.

Transwaste intends to hold a public meeting for residents of the Waipara / Omihi area to elect their three members of the Group. The meeting will be chaired by Mr Ross Little. All residents of the Waipara / Omihi area are invited to attend.

Nominations for the three positions will be called for at the meeting. The members will be selected by secret ballot. Only residents of the Waipara / Omihi area can be nominated, make or second a nomination, or vote. An attendance register will be made of attendees names and addresses as they enter the meeting, and people from the Waipara / Omihi area will be provided with blank ballot slips.

The Community Liaison Group meets quarterly with Kate valley Landfill operations staff, with the prime purpose of the meetings being to:

- Outline and explain the progress of the landfill operations;
- Listen to, and discuss any community and cultural concerns with the landfill operations;
- Present and discuss the complaints register and results of any monitoring and/or reporting as required by the conditions of regional and district council consents.

We look forward to your attendance at the meeting.
